N. B.—I guarantee the right to use my Machines to all parties purchasing them.

ISAAC M. SINGER.

The subacribers, owners of the ROTARY SHUTTLE MACHINE, patented Oct. 1849, hereby Caudon the Public against purchasing or using Machines which infringe upon their patent, as they will prosecute to the extent of the law all such infringements.

Our machinese are now offered for sale for the first time. They have been in use in this city for one year. One firm has made ten thousand dozen Cloth and Plush Caps. Several other companies have employed them very profitably in making clothing, carpet and grain bags, and for other purposes. There are a number now in use at the factory of H. W. Banks & Co. Elm, corner of Canal-at where those wishing to purchase are invited to call and see them in operation. Messrs. H. W. B. & Co. are authorised to make sales of Rights or Machines for use in this city.

These machines are so easily managed, that a child of 14 years of age has kept even machine (which are propelled by steam and employed in making bags) in good order for some months past, attending at the same time to the running of her own machines and doing with it the work of four adults if sewing by hand.

These machines can be driven by hand, treddle, or steam power. To persons wishing to make an experiment before buying, a machine would be rented at a moderate price.

We confidently assert that these are the only machines of the machines now in operation, we repeat our caution against infringments, which will certainly be prosecuted.
